Student Accessibility Office

About the Student Accessibility Office

At Kyoto University of Advanced Science, we provide various types of support for students who live with an illness or are mentally or physically handicapped so that they can have a better daily life at our university.

For students who have difficulty in attending lectures or practical training, we provide support, representation, cooperation, and consultation with the Nurse's Office, Student Counselor's Office, and related faculty and staff.

Rest room (Kyoto Uzumasa Campus)

Do you have any problems with your lectures or university life?

Kyoto Uzumasa Campus

Examples of Assistance

- Assistance with note-taking
- Enlarged copies of handouts
- Informing of teachers that it may take extra time for the student to perform tasks
- Help in communicating the student's needs for support when attending class

※ There are some types of support that are not listed

※ Please feel free to consult the Student Accessibility Office

Support Flow Chart

1 Request Support

Students or parents request support

※ You will need to submit a medical certificate.

2 Consultation & Interviews

3 Examination of the type and necessity of support

4 Receive support

5 Monitoring (re-evaluation)
