List of Official Extracurricular Groups Affiliated with the Student Council

The term “extracurricular activities” at universities refers to various activities that students voluntarily participate in outside of regular class. Extracurricular activities include official clubs and circles that are recognized by the university, activities that are run by the Student Council, activities that are mainly conducted on campus, such as planning and organizing university events, as well as volunteer activities conducted by off-campus organizations, and cooperative activities with companies and local government.

Kyoto University of Advanced Science encourages students to participate in a variety of extracurricular activities that will help them develop the basic skills necessary for social life. We encourage students to actively participate in these activities along with their regular studies.

At KUAS, students are encouraged to engage in a variety of extracurricular activities that can help them develop basic skills necessary for their social lives. Please try your best to actively participate in these activities as well as regular classes.

The content in this booklet is up to date as of February 2023, so some information may be subject to change. Thank you for your understanding.

Committees

- Central Committee
- Executive Committee
- Cultural & Sports Federation Council
- Ryubisai Festival Executive Committee
- Ad-hoc Committees

Enhanced Clubs

- Baseball Club
- Soccer Club
- Women's Basketball Club
- Powerlifting Club

Athletic Clubs

- American Football Club
- Karatedo Club
- Kyudo Club
- Kendo Club
- Junko Baseball Club
- Shorinjikenpo Club
- Soft Tennis Club
- Men's Softball Club
- Motocross Club
- Badminton Club
- Shooting Club
- Youth Recreation Club
- Volleyball Club

Cultural Clubs

- Tea Ceremony Club
- Music Club
- Noh Club
- "KUAS" Broadcasting Studio
- Acoustic Club "Unplugged"
- KUAS Wind Ensemble

There are also these official circles at Kyoto University of Advanced Science!

《Athletic Groups》

- Rubber Baseball Circle
- Men's Basketball Circle
- Futsal Circle

《Cultural Groups》

- Manufacturing Circle
- Game Development Circle
- Chess Circle
- Drone Circle
- Pokémon Circle
- Film Production Circle

Student Council Introduction / Official Organization Explanation

The term “official organization” refers to groups that are recognized by the Student Council and the university. In total, there are three types of organizations: clubs, official circles, and committees. The committees are responsible for the day-to-day administrative work and management of group activities to ensure that they run smoothly. Clubs are provided with club rooms and funding from the Student Council. Official circles are allowed to use on-campus facilities, although clubs are given priority when making reservations.

Privileges and Requirements of Official Groups	Able to Use On-Campus Facilities	Able to Use Club Rooms	Can Receive Funding from the Student Council	Requires an Advisor	Required Time to Become a Club
Clubs	Yes	Yes	Yes	Yes	–
Official Circles	Yes	No	No	No	6 Months

Regarding the Creation, Renewal, Promotion, and Demotion of Official Groups

In order to become an official group of the university, you must first start a new circle. Applications can be submitted throughout the year to start an official circle. Circles that wish to become clubs are required to submit various documents to the Student Council through the university’s Student Affairs Center, meet the designated promotion requirements, and undergo a screening process in accordance with the rules and regulations.

Official Circles

Requirements to apply to create a circle:

- ◇ Must have 5 or more members
- ◇ Planned activities must be deemed appropriate by the university
- ◇ Must be motivated and intend to become a club in the future
- ◇ Must be able to properly submit all necessary application documents

Clubs

Requirements to be promoted to a club:

- ◇ Must have 10 or more members
- ◇ Must have been active as an official circle for 6 months or more
- ◇ Must be able to properly submit all necessary application documents

About Our Activities

Our club practices every day to win the national championship. Our motto is “Bonji-Tettei” (meaning “to apply thorough and careful attention to mundane or basic tasks” in English.) We are fortunate because we have a hardball baseball field with artificial turf to practice on that includes an electric scoreboard. On weekdays, we practice after class (15:00 to 20:00), and on Saturdays, Sundays, and national holidays, we play pre-season games and do group practice. We won the league championship last season, but unfortunately, we did not qualify for the national championship. This season we will go back to the basics and work as a team to make sure we make it to the national championship. [Applications for managers are always welcome!]

Message to First-Year Students from the Club Leader

Our baseball club belongs to the Keiji University Baseball League (Division 1) and we practice every day aiming to become the best team in Japan. Our goal is not only to win but also to have the greatest team members in Japan. We are thankful to the former members and other individuals who have built up the history of the KUAS Baseball Club and we are working hard to do well in both academics and sports while enjoying being able to play baseball.

About Our Activities

We practice every day except Tuesday to get promoted to the second division. Currently, we practice from 17:00 to 20:00 on weekdays and from 9:00 to 12:00 on Saturdays, Sundays, and National Holidays at Sports Field 1 (artificial turf) at Kyoto University of Advanced Science Kameoka Campus. Last season, we had a rough experience in the second division. Now our players and staff are working hard every day as a team to achieve their goals so that in one year we can return to the second division.

Message to First-Year Students from the Club Leader

My name is Tatsumi and I am a 4th-year student in the Department of Health and Sports Sciences and the captain of the Soccer Club this season. The KUAS Soccer Club is currently in the Kansai Region Division 3, and we are practicing every day to be promoted to Division 2. In addition to playing soccer, our club members are also working hard to balance academics well and become leaders on campus. We recruit new students who will work together with this same mindset. Let's get promoted to the Kansai Region Division 2!

Those who want to be managers or trainers are also welcome. We are looking forward to spending fulfilling days with you in the Soccer Club!

Yearly Schedule

Feb.-Mar.	Kyoto Championship
Apr.-Aug.	Kansai Students League, Spring Semester
Sep.-Dec.	Kansai Students League, Fall Semester

About Our Activities

Our twenty members are working hard every day to win the Kansai League Division 2 and to get promoted to Division 1. We have six 3rd year students, seven 2nd year students, and seven 1st year students. We take basketball very seriously, but we also actively work on developing life skills and English proficiency while keeping in mind our career paths after graduation. Our coach has experience instructing in the United States and uses English with us during basketball practice. We also communicate with each other on LINE in English to make English more accessible and to improve our language ability. When deciding what to practice each day, we analyze what we need to improve and talk with our coach to decide. All of us work toward our goals with the keyword of "cooperation."

Message to First-Year Students from the Club Leader

First-year students, congratulations on your admission to KUAS! My name is Moeka Ego. I am a 2nd-year student in the Faculty of Bioenvironmental Sciences (Department of Agriculture and Food Technology) and I will be the captain this season. The Women's Basketball Club is currently in the Kansai League Division 2 and working toward making it to Division 1. In addition to basketball, we work on life skills, English skills, and a variety of other initiatives that are not available anywhere else. At the moment we are in the middle of team-building because we do not have any upperclassmen, but we are training every day with the importance of communicating with the entire team. We are very energetic so first-year students who are eager to improve their skills are very welcome. Let's work together toward our goal of getting promoted to the Kansai League First Division!!

About Our Activities

Powerlifting consists of three events: squats, bench presses, and deadlifts, which involve lifting the maximum weight using a person's most basic movements of standing, pushing, and pulling. The Powerlifting Club practices every day to win a variety of national competitions (National Athletic Meet, Intercollegiate Competitions, World Championship Qualification Competitions), and top international competitions.

Message to First-Year Students from the Club Leader

Powerlifting is a major sport that is also called "The Big 3." If you have ever been to an athletic event in high school, I think you have probably experienced it once. The necessary movements are symmetrical and do not involve twisting motions, so even beginners can perform them easily. No matter what level you are at, if you build up your muscle strength it will become easier, so how about trying it out? It may come as a surprise, but many upperclassmen in our club have gone from complete beginners to first-time national team competitors. The amount of effort you put in is reflected in the amount of weight you can lift, and the possibilities are endless depending on your determination. Everyone is welcome to join our club regardless of gender. All three of our club's world champions are female students. We look forward to meeting you at our club and making memories that will last a lifetime!

Yearly Schedule

Mar.	Japan Classic Powerlifting Championship
May.	National Athletic Meet First Qualifying Round Kyoto Classic Powerlifting Championship
Jun.	National Athletic Meet Second Qualifying Round Kinki Classic Powerlifting Championship

About Our Activities

The Karatedo Club currently has eight club members. The small number of club members ensures an environment where the members can focus on practicing.

In particular, we focus on the basics of karate, such as straight punches, front kicks, and various standing positions. We also practice kumite (sparring) and kata (set sequences), which are done in karate competitions, and learn various movements for attack and defense. Whether you want to excel at karate, get a black belt, or enrich your university life, how about coming to visit the Karatedo Club's practice session? Our members are all looking forward to it!

Message to First-Year Students from the Club Leader

We accept members from all karate backgrounds (Goju-Ryu, Shotokan-Ryu, Shito-Ryu, Wado-Ryu, etc.) and we accept people with experience from all schools. Also, those who have never done karate are welcome! We are currently recruiting both regular members and managers. International students also participate in our club. If you are interested, feel free to contact us to visit, even if it is just to watch.

At the Karatedo Club, we focus on practicing the basics to build a solid physical and technical foundation. Once you learn these fundamentals, you can enjoy karate for the rest of your life. Rather than getting caught up in whether we win or lose a match, we try to focus on strengthening our minds and bodies and motivate each other to improve even more. We are all looking forward to meeting you!

Yearly Schedule

About Our Activities

On Tuesdays and Wednesdays, we receive instruction from Professor Tanaka and work on shooting and target practice. On Fridays, we practice on our own to reinforce what we learned. On Saturdays and Sundays, we practice for competitions and scoring with the guidance of our instructor Professor Kawaguchi. Even on days when we do not meet, our members continue to work hard and practice individually.

During both individual and team competitions, we encourage each other and aim for victory while putting our souls into every shot. Second-year students get to participate in the coming-of-age day archery event at Sanjusangendo Temple, and many members of the club set this once-in-lifetime opportunity as one of their goals.

Message to First-Year Students from the Club Leader

Hello, first-year students! I am Touma Takatsuka, the leader of the Kyudo Club. Kyudo is an ancient Japanese sport in which archers shoot at a target about 25 meters away, using a large Japanese-style bow that measures 221 cm, although there can be some variation depending on the archer. There is an ancient Japanese legend about a samurai named Nasu No Yoichi who shot a paper fan with an arrow from about 75 meters away that is quite well known, but we also practice hard every day! Several of the members of our club started Kyudo after entering university. If you are interested in Kyudo or martial arts, please come and visit our club. Even if you have never participated in an athletic club before, we will do our best to teach you. We look forward to welcoming new students!

Yearly Schedule

May.	Kyoto Student Kyudo Championship and Kansai Student Kyudo Championship
Jun.	Summer District Examination
Aug.	All Japan Student Archery Championship
Sep.	Autumn District Examination and League Matches (until October)
Nov.	Winter District Examination
Dec.	End-of-Year Kyudo Gathering ("Nōshakai")

About Our Activities

The Kyoto University of Advanced Science Kendo Club currently has 11 members (five 4th year students, two 3rd year students, and four 1st year students). We mainly practice on Tuesdays, Thursdays, and Saturdays.

Tuesdays and Thursdays are based around independent practice, while on Saturdays we receive practice with a visiting instructor.

We practice every day with the aim of winning tournaments in the Kyoto/Shiga area and Kansai region. Our basic practice includes warm-ups, stretching, practice swings, basic hitting (mask area, hand area, torso area, thrusts), "kakari" practice, "oikomi" practice, and training with others at the same skill level. Before the tournament, practice matches are also held.

Message to First-Year Students from the Club Leader

First-year students, congratulations on your admission to KUAS! The members of the Kendo Club come from a variety of backgrounds, from those who have been practicing kendo since childhood to those who started after entering university. I think it is a wonderful thing to meet people from diverse backgrounds through club activities. Our club has a good balance of both having fun and seriously concentrating on kendo practice. During your time at university, club activities are a good place to cultivate social skills and form relationships. Your time as a student is a precious time in your life when you will be able to spend a lot of time doing what you enjoy. Club activities provide students with a comfortable space on campus, and I think that is the case for the Kendo Club. Even if you are just a little bit interested, everyone is welcome to come visit, no matter if you are a beginner or had stopped practicing kendo for a while. We'll be waiting for you!

Yearly Schedule

Apr.	Welcoming 1 st Year Students, Kansai Student Kendo Championship

About Our Activities

The Junko Baseball Club is ideal for those who are serious about baseball and also want to balance studying, acquiring qualifications, and doing part-time jobs. To win the spring and autumn league championships and participate in the national tournament in the summer, our main activities include practice three days a week and training camps twice a year in the spring and summer.

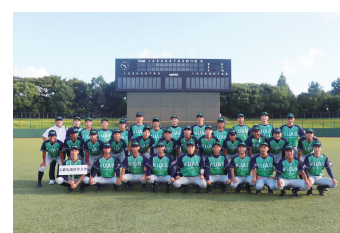

Because we practice only three times a week (Monday, Thursday, and Saturday), our university life does not only revolve around club activities. This way we can enjoy campus life, get experience doing part-time jobs and also focus on job-hunting activities in our third year of university. We aim to participate in the national tournament every year, and we are constantly training to create a high-level team. Last year, for the second year in a row, we qualified for the national tournament and made it to among the top eight teams in the country. Our club has a leader who oversees our team, and all other roles, such as director and coach, are taken on by students. This year, once again our team's goal is to make it to the top four in the national tournament, as well as have the club members set their own goals and decide what to practice under the guidance of the club leader in order to help the members grow and become more independent.

Message to First-Year Students from the Club Leader

New students, congratulations on your admission to KUAS! My name is Shimada and I am the leader of the Junko Baseball Club. Our club meets on Mondays, Thursdays, and Saturdays and is currently participating in the national tournament for the second year in a row. Since we only meet three days a week, there is no interference with schoolwork and most club members are also able to do part-time jobs. One good aspect of the Junko Baseball Club is that we can talk and practice together in a casual atmosphere because we do not have any adult managers or coaches. Since our club is led by the members we keep a good balance of taking our practice seriously and also having fun. If you are interested in playing baseball while also having a fulfilling time at university, this is the club for you! We also allow visits, so if you are interested in trying it out, please come to Kameoka Sports Field 2! We are looking forward to seeing you!

About Our Activities

In our club, we train according to our respective ranks and practice every day to attain a higher rank. We also participate in tournaments held every summer and winter and practice martial arts demonstrations in preparation for these tournaments. Our club mainly meets at Uzumasa Campus (which is unusual for an athletic club at KUAS), but we also use the Martial Arts Dojo at Kameoka Campus when the situation calls for it.

Message to First-Year Students from the Club Leader

Have you ever thought martial arts are cool? Or that you want to join an athletic club? Or that you want to try something new? How about Shorinjikempo? It is a martial art for training the body and the mind that originated in Japan. Beginners can work at their own pace alongside higher-ranking members, and it is possible to get a black belt by graduation! More than half of the members in our club started Shorinjikempo in university. All of our members practice according to their own level. We adjust the meeting days, times, and locations each semester according to the timetables of our members, so you can continue to participate in our club activities while prioritizing your studies and other commitments. If you are even just a little interested in joining our club, please visit our practice session and see for yourself! We look forward to meeting you!

About Our Activities

The Motocross Club meets once a month on the third Saturday of the month from 9:00 a.m. to 6:00 p.m. at Kameoka Campus to do motorcycle maintenance and practice driving. Since the course is located on campus you do not need a driver's license, and you can borrow protective equipment! Our goal is to win the Campus Off-Road National Championship, so we participate in motocross competitions and tours to become as fast as possible. Also, we want all our members to be able to do motorcycle maintenance, which we do on a regular basis in order to continue improving.

Message to First-Year Students from the Club Leader

New students, congratulations on entering KUAS. You must be excited about your life at university that is about to begin. On the other hand, you may feel confused and anxious in an unfamiliar environment, but I encourage you to experience many things while cherishing your encounters with various people to grow as a person. I have also met many people at university and had both fun and difficult times through these encounters, but I was able to overcome and grow with my classmates through mutual encouragement. Unlike high school, you have a lot of free time during your time at university. How you use that time is up to you!

About Our Activities

The Shooting Club meets about twice a week. The main activity for new students is essentially studying to obtain a permit to carry a firearm, but after obtaining a license, we also hold meetings to exchange information with other qualified members of the club. We are planning to expand the scope of our activities by entering new shooting competitions in the future, so if you are interested in guns or want to try something new in college, please join us for a trial membership. We are waiting for you!

Message to First-Year Students from the Club Leader

New students, congratulations on your entrance to KUAS. I'm the leader of the Shooting Club, Shota Sakuragi. Our club's main activities are clay target shooting, which has recently become an official event at the Olympics, and target shooting using air guns. Since both activities use real guns with live ammunition, permission to carry a firearm is required. Therefore, the Shooting Club holds study sessions to support members in obtaining a permit. We are also planning to start new shooting-related activities in the future, so from this year we will encourage new members to participate in physical activities in addition to the study sessions.

About Our Activities

Every Wednesday, we visit a children's center in Kameoka City to play with children, and once a month, we invite an instructor to come and teach us recreational activities. We also participate in various events as assistants, devise and practice recreational activities, play recreational games with children and elderly people, make balloon art, and play kendama (a traditional Japanese game). We also do recreational games and other activities within our club to get to know each other better. Due to the ongoing COVID-19 pandemic, it has been difficult for us to participate in events, but we will do our best to carry out our activities as much as possible.

Message to First-Year Students from the Club Leader

Congratulations on entering KUAS! In the Youth Recreation Club, we learn about and do recreational activities. The upperclassmen and underclassmen in our club get along very well. Besides learning about recreational activities, we also emphasize the importance of having fun among the members of the club. Feel free to contact us if you are interested in learning about recreational activities and enjoying your time at university. We are looking forward to hearing from you! We offer a trial period, so please come and visit us!

About Our Activities

We have league matches every spring and autumn and practice twice a week at the Kameoka Campus gymnasium in preparation for these matches. The members who participate vary from day to day, so each practice session feels fresh and new. In the last autumn league, we were unable to advance because of promotion and relegation, so we have been practicing with even more motivation. We also have a lot of beginners and are working hard every day to improve our skills.

Message to First-Year Students from the Club Leader

New students, congratulations on entering KUAS! The volleyball club is currently recruiting members. Most of the current members are fourth-year students, so next year the club will be shaped by you. We also have just enough members to play in the games, so if you decide to join the club, you will be able to participate in the games immediately. We also have just enough members to enter matches, so if you decide to join our club, you will be able to participate in games immediately. We are hoping to move up to a higher league this year, so we need to improve our skills and increase the number of members significantly. Although we are in the lowest league, we hope you will consider joining our club. Trial participation is also welcome. Please contact us on Instagram. Let's aim to get promoted to a higher league together!

About Our Activities

Our club practices for tea ceremony events that are held twice per year in addition to doing regular tea ceremonies in our club in the Urasenke-style, which is one of the three main tea ceremony schools. Also, we occasionally go to the Urasenke estate to practice. There is a tea ceremony room at Kameoka Campus where we do our regular practice and tea ceremonies. What we practice is tailored to each individual, so there is no need to have previous experience doing tea ceremonies. For tea ceremony events, we either use the Kameoka Campus tearoom or rent a tearoom off-campus and the club members all work together to entertain visitors.

Message to First-Year Students from the Club Leader

New students, congratulations on your admission to KUAS. Some people may think of tea ceremonies as being extremely formal, but our club aims to help members learn about tea ceremonies in a casual and enjoyable manner. By learning about tea ceremonies, students can also learn about etiquette, manners, Japanese culture, and other things that will be useful after graduating.

Tea ceremonies combine various elements of Japanese traditional culture so much so that it is also considered the "comprehensive art" of Japanese culture. If you are interested in traditional Japanese culture, if you like tea and sweets, if you want to wear a kimono, if you want to find a hobby that you can continue for a long time, or if you just have free time, please come join us! Our club welcomes all members, regardless of whether or not you have experience with tea ceremonies.

Yearly Schedule

Jun.	Tea Ceremony for 2 nd Year Students
Jul.	Summer Tea Ceremony
Nov.	Robiraki (Switching to a Winter Hearth)
Dec.	Winter Tea Ceremony
Jan.	Hatsugama (First Tea Ceremony of the New Year)

About Our Activities

In general, the Music Club performs at the school festival and other events as an official club. Also, the club plans to hold exchanges with other universities and perform live farewell concerts for graduating students, so there are many opportunities for them to perform (please see the annual schedule). Since the number of members in the club has decreased considerably due to the COVID-19 pandemic, there are many opportunities to be on stage. You can form multiple bands, form a band for each live concert, and enjoy the freedom to perform as you wish. If you are interested in music and live performances, please feel free to contact us!

Message to First-Year Students from the Club Leader

Congratulations on entering KUAS! The Music Club has only a few club members, but everyone greatly enjoys their activities. Before a live performance or event, each band practices freely as there are no fixed days or hours to meet. Members are welcome to join multiple bands, so you can form a new band for a specific performance. This may make it easier to play a certain song or part you want. Many members started playing instruments after joining the club and the experienced members teach them how to play. So, you are welcome whether or not you have experience! If you are interested, contact us to watch or try out our club!

Yearly Schedule

Apr.	Shinryusai Festival, Cherry Blossom Viewing, BBQ
May.	New Members Live Performance
Jul.	Lunch Live Performance

About Our Activities

At our club, we practice *shimai* (noh dance) and *utai* (noh chanting/recitation). We are one of the rare clubs that meet at Uzumasa Campus. (Of course, we meet in Kameoka, too.) Either way, it is not necessary to travel to another campus! Also, since we only meet for an hour and a half, it is a good club for busy people! Every year, we have performances called "Aki-no-Kai" in October and "Haru-no-kai" in March. Beginners are welcome! Or perhaps I should say no one in this club has previous experience.

Message to First-Year Students from the Club Leader

Hello everyone! This is the Noh Club. The charm of our club is its lenient atmosphere! What is so lenient about it? (1) Our club meets once a week for an hour and a half, (2) We do not meet during long vacations, (3) All members of the club are kind. We recommend this club for those who are busy, those who want to do several club activities, and those who want to enjoy their personal time as well. If you have come all the way to Kyoto to go to university, how about experiencing Japanese culture? You can also learn about history and kimonos! We welcome 1st-year students as well as 2nd and 3rd-year students. We also have quite a few members who joined the club partway through the year. Please come and try out our club!

Yearly Schedule

Apr.	Shinryusai Festival
Sep.	Ryutosai School Festival
Oct.	Aki-no-Kai
Nov.	Ryubisai School Festival
Mar.	Haru-no-Kai

About Our Activities

We mainly create and record TV and radio programs, and host and film events. Members are free to make television and radio programs in any format. You can plan and create programs as you wish. We also participate in the school festivals "Ryutosai" and "Ryubisai," as well as other off-campus events either as hosts or to film.

Message to First-Year Students from the Club Leader

At the "KUAS" Broadcasting Studio, you can learn about all kinds of broadcasting technology from scratch! It is also possible to produce all types of radio and TV recording, broadcasting, and video editing in our well-equipped studio facilities (we broadcast at noon on both Uzumasa and Kameoka Campus). If you are not good at public speaking or have never handled a camera or other equipment before, you are welcome to join us. We will kindly teach you! Another interesting part of our club is that you can participate in rare experiences, such as filming, recording, and hosting events held in Kyoto Prefecture. Let's enjoy time at university together at the "KUAS" Broadcasting Studio!

Yearly Schedule

Apr.	Filming the Entrance Ceremony
May.	Filming the Akechi Mitsuhide Festival
Jun.	Entry Submission to the "Chiho no Jidai" Film Festival
Jun.Jul.	Tanabata Project
Aug.Sep.	Entry Submission to the NHK National Uni. Broadcast Contest

Instagram

https://www.instagram.com/kuas_unplugged/?%2F

About Our Activities

You can learn to play acoustic guitar, bass, cajón, and keyboard. We do not choose the instrument for you, so you can play and master any instrument you like. We perform live concerts within the club about once a month and sometimes on the big stage at the Ryubisai School Festival. Most of the bands we form play covers, so you can form your own band and play your favorite songs. There are many events such as a training camp in the summer and joint live concerts with other universities in the fall and winter, allowing the club members to deepen their connections.

Message to First-Year Students from the Club Leader

Hello! I'm the leader of the Acoustic Club "Unplugged," Moeka Ikeda. Congratulations on your admission to KUAS! Thank you for finding Unplugged out of the many university club activities and circles. The best part about Unplugged is that you can play your favorite songs, usually with an acoustic guitar. Beginners can learn very quickly because they practice playing their favorite songs. The experienced members are very kind and will teach you what you don't know, so you can practice with ease. Most of the club members start playing instruments for the first time, so don't worry if you are a beginner! So, how about joining Unplugged? You are welcome to come for a trial visit. We will be waiting for you!

About Our Activities

We mainly play wind instruments in a brass band style. Since we just became a club in 2022, we enjoy playing while exchanging ideas with our members. During the summer, we practice with outside institutions such as Hanazono University to help each other prepare for performances. Our club also owns a wide range of instruments. If you are interested in joining, please contact us via e-mail or Twitter, etc.!

Message to First-Year Students from the Club Leader

Welcome to KUAS!! We know that you are about to start a fun and busy college life, but why don't you spend a little bit of it with the KUAS Wind Ensemble? Currently, we have 16 members (8 boys and 8 girls)! We don't have that many members yet, but we have students from almost all faculties! Among them, the largest number is from the Faculty of Engineering! About 1/3 of the club members are International Students from the Faculty of Engineering! In addition, our advisor is the Aussie, Jackson, from the International Office! Whether you want to share information about your department, interact with people from other cultures, or start playing an instrument, everyone is welcome! However, our inventory of instruments is limited, so please contact us as soon as possible if you have a particular instrument you would like to play or have already decided on one! If you have any other questions, please feel free to ask us on social networking sites! We are all looking forward to hearing from you!

About Our Activities

We usually hold manufacturing and robotics competitions. Generally, there is no membership fee. We discuss the content of what we will create at meetings and do what everyone decides on. We also organize competitions. For example, we held a line tracing competition this past March. We have the freedom to create and do what we want.

Message to First-Year Students from the Club Leader

The Manufacturing Circle does manufacturing-related activities, so it is recommended for those who want to try mechanical engineering or creative activities when they enter university. The circle was newly established last year, and it's getting bigger and its momentum is growing stronger. The genre of what we make is not fixed, so we are free to be creative. We have many engineering students, and although our main focus is on mechanical engineering at the moment, we are also fine with doing creative activities other than mechanical engineering. In addition to creative activities, we also organize competitions and other events. If you are at all interested in our activities, please come and experience them for yourself!

About Our Activities

The Game Development Circle welcomes not only experienced coders but also those who are interested in ideas about game development and want to learn to code. We also welcome artists who are interested in drawing characters and backgrounds. On days off from club activities, we also play games to relax and enjoy our favorite genres.

Message to First-Year Students from the Club Leader

I started this circle to create a place where we can create games and discuss the genres we love. Our goal is to develop games that express our creativity and passion for the gaming industry. Although we are still a new circle, we are determined to achieve our goals and I hope that more members will share our passion.

About Our Activities

Currently, each member is working on something of interest related to drones, mainly at Uzumasa Campus. This includes drone flight practice, studying for drone license qualifications, drone design, and aerial photography using drones. In the future, we are also considering participating in a team sport using drones called "drone soccer."

Message to First-Year Students from the Club Leader

Nice to meet you! I'm Suguru Abe, a member of the Department of Psychology in the Faculty of Humanities and I am the representative of the Drone Circle! You read my name, didn't you? Good, now we have a connection! Well, this circle was just established in December 2022, so we are still managing it through trial and error. We established this club because we wanted to create a place on Uzumasa Campus where we could meet students from all faculties and grade levels who we would not normally have the opportunity to interact with. We welcome anyone interested in drones! Come join us and have fun with drones! Our circle starts here!

About Our Activities

Pokémon fans, gather here! The KUAS Pokemon Circle is a place for Pokémon lovers from the university to mingle casually, sometimes do serious battles, and sometimes do things like "Metronome Battles" for fun! We do various activities related to Pokémon, including the latest Pokémon games, Scarlet and Violet, as well as Pokémon card games.

Message to First-Year Students from the Club Leader

New KUAS students, congratulations on your admission to the university!

"If you make eye contact with another trainer, it's time to battle!"

In the KUAS Pokémon Circle, Pokémon fans enjoy Pokémon video games and Pokémon card battles in a variety of ways, from fun free battles to practicing battles to win large tournaments. We welcome all students who love Pokémon, whether you are a Pokémon Scarlet and Violet player, a Pokémon card game player, or just starting! Of course, international students are also welcome!

We welcome all students who love Pokémon!

Yearly Schedule

As Pokémon card players, these are the kinds of tournaments we are aiming to participate in:

- Champion League

With more than 3,000 participants, this is the largest Pokémon card game tournament in Japan. The top prize will pave the way to participate in the World Championships (WCS).

- City League

This is a medium-sized tournament with about 30-60 participants, and last year each of us was able to participate four times during the year. If you place high enough in this competition, you will qualify for the World Championships. Last year, the team practiced for the Champion League in September, December, February, April, and May, as well as for top places in all four City Leagues.

About Our Activities

The Rubber Baseball Circle has a wide range of members from beginners to experienced players. Our activities include meeting at a park in the city after classes, where we can practice catching, batting, and situational fielding practice. In fielding practice, each person is allowed to bat twice. After the first hit they stay still, then they run after the second hit. There is a reason for this, which is because we want you to try to bat as best as you can. If you are batting and running, you will inevitably lose your form because you will not be able to swing as hard as you should. We always practice like this, and if we have more people, we can have intra-squad matches within the team.

Message to First-Year Students from the Club Leader

We are the Uzumasa Marines, a rubber baseball circle based on the concept of "even for beginners"! Last year, we participated in spring, summer, and fall tournaments. In the spring tournament, we played four games in two days. We lost three games but won one game, which was our team's first victory. In the summer tournament, our team lost in the first round. In the fall tournament, our team played four games, losing three matches but winning the gold in one. The overall result was not so great, but all the members had a fun time! It is totally fine to join as a beginner, and there are some upperclassmen who joined as beginners and are active in the club. So, if you are interested in baseball, you are more than welcome to join us! We are also looking for a manager!

We are also planning to meet at Kameoka campus, so we are looking for students based at Kameoka Campus as well!

About Our Activities

Hello! This is Executive Committee. We operate and manage the clubhouse. We check the make sure there are no violations in the club rooms provided by the Student Council and settle accounts for the rotary presses used by each organization. It is a challenging but rewarding committee.

Message to First-Year Students from the Club Leader

New students, congratulations on your enrollment! I am Kuroki, a member of the Executive Committee. The name "Executive Committee" may sound a little scary, but that's not the case! The operation and management of the clubhouse are comprised of more easy tasks than difficult ones, and I think you will be able to get used to it quickly. Also, by joining the Executive Committee, which is a part of the Student Council, you will learn about how the Student Council is structured, which can help you learn about the structure of Japanese society as well.

Yearly Schedule

Jun.	Interim settlement of Rotary Presses

About Our Activities

The Culture and Sports Federation Council, which is part of the Student Council, is responsible for organizing official club activities and circles and handles three main tasks. The first task is a bi-weekly online meeting to communicate important information to clubs and circles. For this purpose, we collaborate on a daily basis with Koufukan staff members in the Student Center and the Sports Promotion Center, as well as with other committees. The second task is approving new official circles. For approval, we will conduct an online question-and-answer session with the circle representatives. The third task is to attend a weekly meeting with the entire Student Council to discuss the overall policies of the association and approved groups (clubs and circles).

Message to First-Year Students from the Club Leader

Nice to meet you! I am Keita Tanaka, the Secretary General of the Culture and Sports Federation Council. Our council works to ensure that club activities and circles at Kyoto University of Advanced Sciences are vibrant and active. When I first took office, I did not think I could do this kind of work, but by asking others about things I did not understand before they became important issues, and by sharing the burden with the vice secretary general and other members, I now know how difficult and also fun it is to accomplish things in cooperation with others. It is not an easy job, but we work with pride and responsibility as a student-representative organization.

Yearly Schedule

Jun.-Dec. New Circle Approvals

Culture and Sports Federation Council Meetings (except for during long vacations).

About Our Activities

Hello! We are the Ryubisai Festival Executive Committee. We organize and manage the university's school festivals "Ryubisai" and "Ryutosai." We divide into the planning group, public relations group, mock group, and decoration group. Each group is responsible for their own work. We have regular meetings once a week on Wednesdays. There is a lot of hard work involved, but the sense of accomplishment is great! We know that there are things you may not know about each group or its activities, but there is no need to worry as we will teach you at the beginning. Please feel free to visit our booths and activities. Let's make an exciting school festival together!

Message to First-Year Students from the Club Leader

New students, congratulations on your enrollment! I am sure that you will be busy with your studies and seminars at the university, but I hope that you will enjoy your university life to the fullest by doing the things that you want to and experiencing the things that are unique to university life. It is up to you to make the most of your time at university. I sincerely wish that your four years will be wonderful!

About Our Activities

Thank You Party Executive Committee

This committee holds a graduation party after the graduation ceremony held every year on March 22. Our goal is to make the event a great success as it is the last party to send off the upperclassmen who have helped us so much.

Shinryusai Festival Executive Committee

This committee is responsible for creating events and opportunities for each club and circle to recruit new members. This is the most important committee for welcoming new students, and therefore very rewarding.

Frontier Spirits

This is the committee that produces this booklet. We collect information from each committee, club, and circle, and compile them into a booklet.

Message to First-Year Students from the Club Leader

Thank You Party Executive Committee

Congratulations to all new students on your admission to KUAS. This committee is here to see off graduating students. If you would like to give something back to the upperclassmen who have helped you, or if you would like to be involved in the Student Council, we are always looking for new members.

Shinryusai Festival Executive Committee

Congratulations new students on your admission! This committee is getting better and better every year with more input from new students. We are always looking forward to your comments and cooperation, so please join us!

Frontier Spirits Executive Committee

I know that making this booklet is not an easy task and it will be hard work, but it will be a good experience, so please join us!

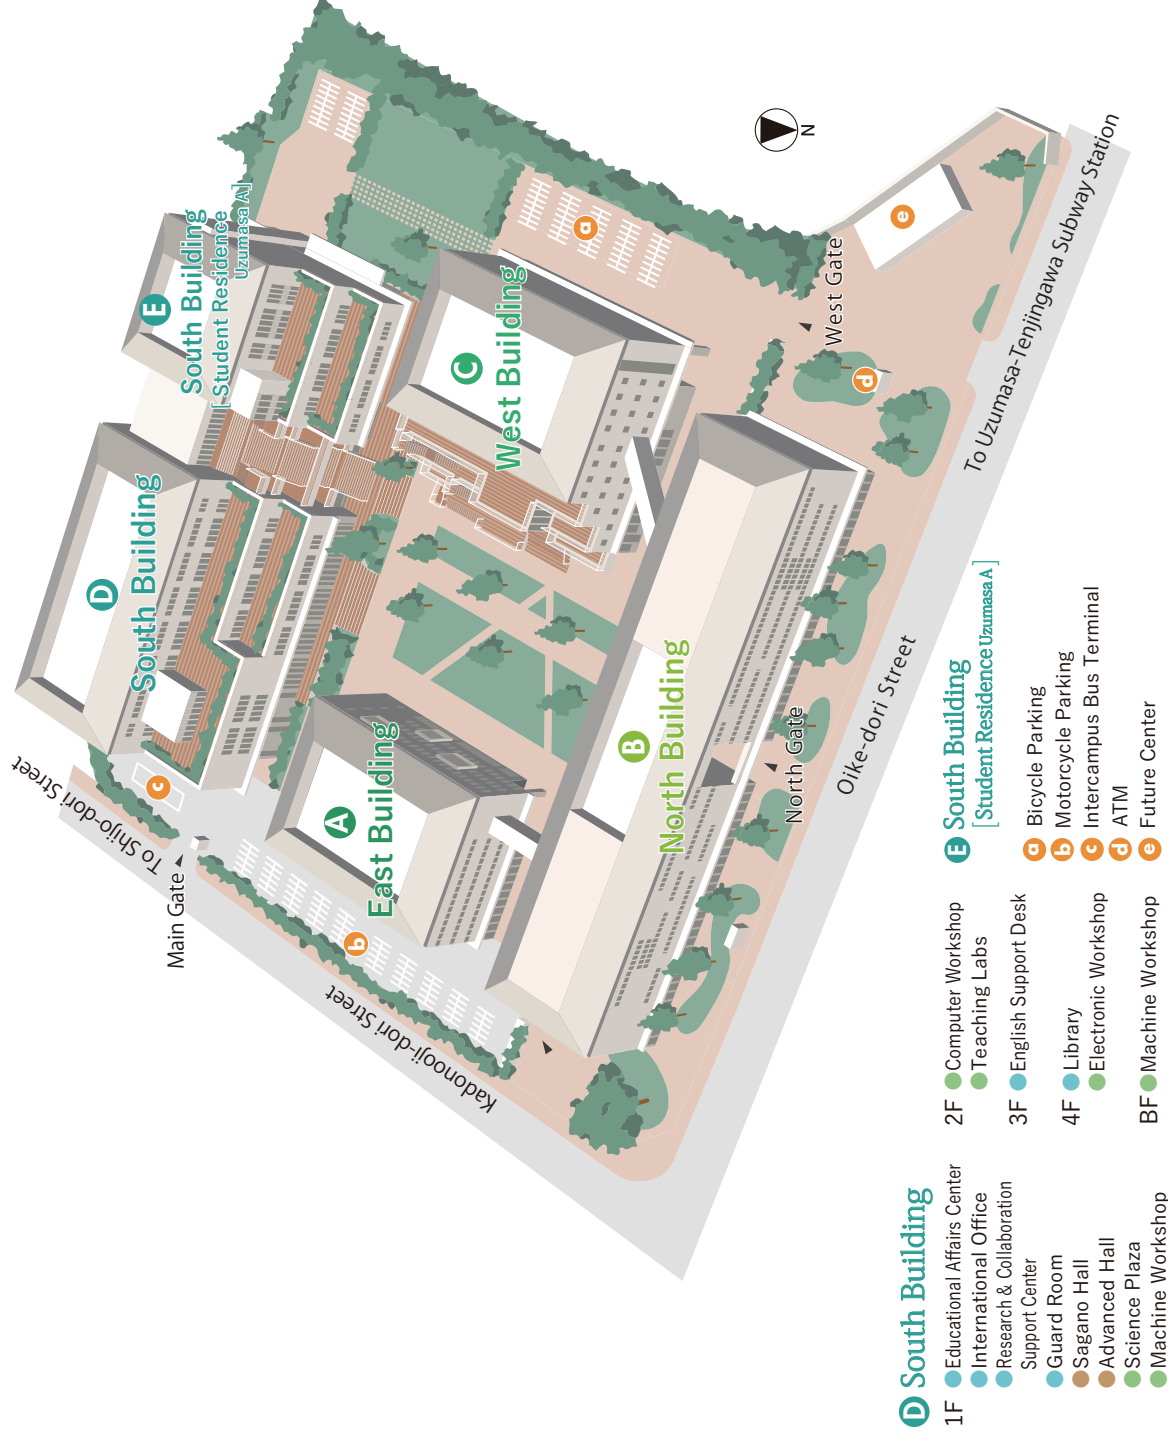

Yearly Schedule

Sep. Ad-hoc Committees are formed

Apr. Ad-hoc Committee are dissolved
